PROFILE

With a year of professional experience and 4 years of self-development, I've built skills in software engineering. I'm currently developing websites using ASP.NET Web API, Spring Boot, React and especially Spring boot.

I adapt quickly to new technologies and excel in problem-solving. I'm committed to continuous learning and contributing to innovative projects in the IT sector.

EXPERIENCE

TertuliaTalks-Full-stack developer and startup leadership (co-founder)

2024.06- still

Involving volunteers' developers in the process and acting as mentor. Startup establishment stages, preparation of the development process, CI/CD process management, team management.
